APURV SATISH BAGADI

B.Tech Computer Science & Engineering Student | Software Developer | Full Stack Developer | Web Developer | Application Developer

Kolhapur, Maharashtra | +91 7247316906 | apurvbagadi099@gmail.com | github.com/Apurvbagadi | linkedin.com/in/apurv-bagadi-b1172538a/

PROFESSIONAL SUMMARY

B.Tech CSE student (2026–2029) building software, web, full-stack and AI/ML projects. Hands-on experience with Python, Java, C/C++, JavaScript, React, Flask, REST APIs, SQL and Git/GitHub. Experienced in developing academic and prototype applications, debugging, testing, documentation and teamwork. Seeking internship opportunities in software development, full-stack development, web/application development, AI/ML, testing or technical support.

EDUCATION

B.Tech – Computer Science and Engineering | D. Y. Patil Pratishthan's College of Engineering, Salokhenagar, Kolhapur | Shivaji University, Kolhapur | 2026–2029 | Minor: Civil

Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Technologies | HSC: 46% | SSC: 67%

TECHNICAL SKILLS

Programming: C, C++, Java, Python, JavaScript, Java Basics, OOP, DSA, Problem Solving

Web & Full Stack: HTML5, CSS3, JavaScript, React, Node.js, Express.js, MERN Stack, REST API, Responsive Design

Backend & Databases: Flask, FastAPI, SQLite, PostgreSQL, MongoDB, SQL, CRUD, JWT, Firebase

AI / Data: Python for Data Science, Pandas, Scikit-learn, Data Analysis, Machine Learning, Computer Vision

Tools & Engineering: Git, GitHub, Debugging, Software Testing, Unit Testing, SDLC, Agile, Documentation, Troubleshooting

INTERNSHIP & LEADERSHIP EXPERIENCE

CodeAlpha — AI Intern | 01 Aug 2026 – 30 Aug 2026 | Python, AI/ML, Software Development

- Developed AI-based applications and automation using Python and ML-oriented tools.
- Worked with Flask, Pandas and Scikit-learn; performed debugging, testing and technical documentation.
- Used Git/GitHub for version control and project workflow.

CodSoft — Python Intern | Jul 2026 | Python, Software Development

- Built Python projects covering software development, application development, web development, testing and debugging.
- Applied DSA, OOP, REST API and SQLite concepts in project work.

CodSoft — Student Ambassador | Aug 2026 | Leadership, Communication, Technical Support

- Supported community engagement and communication activities.
- Worked with peers using teamwork, coordination and technical support skills.

IIC DYPSN — Co-Head, Social Media Team | 2026 | Leadership, Social Media, Event Promotion

- Coordinated social-media activities, event promotion and team communication.
- Worked with team members on content planning and institutional event visibility.

FEATURED PROJECTS

Technova AI – Placement Analysis | Python, Flask, Pandas, Scikit-learn, REST API, SQLite

- Full-stack placement-analysis application with data processing, ML insights, web interface, API integration, testing and debugging.

MargaDarshan – Student Mentor App | Python, Streamlit, SQLite, Pandas

- Student mentoring platform with career guidance, dashboard, authentication, database management, placement support and resume-review concepts.

ASBNOVA – Full-Stack Service Platform | HTML, CSS, JavaScript, React, Firebase, GitHub

- Full-stack service platform with React frontend, Firebase authentication/storage, AI-assisted features, REST API concepts, deployment and testing.

SkillRise – AI Career Platform | MERN, Python, AI, Firebase, Git/GitHub

- Career platform concept combining skill tracking, multilingual AI mentoring in Hindi/Marathi/English, frontend, backend and database functionality.

CyberRakshak – AI Cybersecurity | React, FastAPI, PostgreSQL, XGBoost, Random Forest, SHAP

• Cybersecurity prototype for malicious URL, email and file detection using risk scoring, anomaly detection and explainable AI.

Chess Game | C, DSA, OOP, Software Development

• Two-player chess game implementing game logic, board operations and object-oriented programming concepts.

ADDITIONAL PROJECTS

• TravelCo – Travel planning platform | HTML, CSS, JavaScript, responsive web development

• AI Portfolio & Admin Dashboard – React/Vite, Tailwind, Flask, REST API, JWT, SQL, CRUD | Planned

• JalRakshak AI – Water management prototype | Python, FastAPI, GIS, forecasting | SIH prototype

• RoadGuard AI – Road safety system | AI, Computer Vision, GIS, risk scoring | SIH

• KrushiDrishti AI – Agriculture assistant | AI/ML, Computer Vision | SIH

• Fitness App – Activity tracking application concept

CERTIFICATIONS

• NPTEL – Python for Data Science: Python, Data Science, Pandas, Data Analysis

• IBM – Python 101 for Data Science: Python Fundamentals, Data Science Basics
